Environmental Policy

Utility Asset Management
A Unit of UXC Limited
ACN 060 674 580
ABN 31 060 674 580
info@utilityasset.com.au
www.utilityasset.com.au

Purpose

Utility Asset Management provides management and maintenance services for the utility companies throughout Australia. It recognises its moral and legal responsibility to comply with all applicable environment protection laws, and to continually improve its operation in line with its established quality and occupational health & safety procedures. This commitment extends to ensuring that its operations do not place the local environment at risk and to prevent pollution.

This policy applies across Utility Asset Management operation's in all of our depots, and worksites

Policy

- We acknowledge the importance and necessity of safeguarding the Environment, our employees and the wider community.
- Our objective is to conduct operations in accordance with legislation, government policies and planning approvals
- Our company will design and implement new programs and work to minimise waste and adverse Environmental effects, including visual, and to maximise favourable effects
- We will inform and consult the community on significant environmental matters relevant to company activities
- Management reviews will be conducted across our Environmental Management System to identify opportunities for continuous improvement and ensure objectives and targets are met.
- We will work within a framework of sustainable development using resources in a manner which maximises their value to the community and to future generations
- We will mitigate adverse environmental effects from all activities Implementation

Environmental Policy (continued)

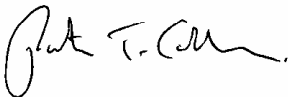

Implementation

Our corporate strategy will embrace environmental management principles using compliance to ISO 14001. It is incumbent on the company and the responsibility of employees at all levels to report any environmental conditions and to promote and encourage the adoption of an environmentally aware and responsible organisation.

Consultation

The Company has a total commitment to encouraging consultation and co-operation between management and employees. It will formally involve employee representatives in any workplace change, which will affect the health and safety of employees in any workplace.
